

NEXSENS MCIL-4 CABLE ASSEMBLIES

WIRING

Figure 1: NexSens Cable Assemblies.

Overview

The NexSens MCIL-4 flying lead cable assemblies come as a female or male wet mateable cable with a locking sleeve available for interfacing with a variety of water quality instruments.

Note: The wire colors on both cable styles (male or female) match the same pin; however, their respective pin arrangements are different (Reference Figure 2 & Figure 3). Ensure to follow the pin arrangement of the purchased cable.
